

## D.I.S.L. AUTOMATIC – HIP HOP 4 CHANGE LYRICS

if i die, don't cry for me in a song  
i'll live on through the people i inspire  
to make a change, with my rhymes keep 'em reaching higher  
oppression is the fuel that is feeding my desire  
to acquire all the knowledge that is needed and required  
to fight for the liberty of mankind  
if you think we're really free you must be out your d-mn mind  
they say if a man's blind he can't find the truth  
well maybe he can hear it that's why i be in the booth  
that's why i be on the rooftop screaming out loud  
power to the people, i'm a dreamer and i'm proud  
you can see me in a crowd, i be bustin' in a cypher  
this the type of beat that make a muf-cka hyper  
big up to the uk and all of great britain  
they be like "safe mate" when i be straight spittin'  
i hit 'em with that real sh-t every single time  
i put my heart and soul into every single line  
i committed crimes and i got hit with the punishment  
only reason for the drug war is the government  
being lobbied by the corporations who are profitin'  
by locking up the people but it's time we put a stop to them!

[chorus]:

first we gotta wake up  
then open our eyes up  
then we gotta come together peacefully and rise up! 4x
